2019 (75.46%)

PROJECTS || INTERNSHIP

- **Eye Movement Based Mouse Cursor Control using Open CV and Media Pipe (6 Months)**

This system uses a camera to track a user's eye movements and moves the mouse cursor on the screen accordingly, allowing hands-free interaction with the computer.

- **Image to Caption Generator using Computer Vision+Natural Language Processing**

This involves training models to automatically extract features from images and generate the suitable caption.

- **Deep Learning (Image Processing) using CNN Algorithm.**

This involves training models to automatically extract features from images and perform tasks like classification, object detection and segmentation.

- **Web Development (Front End) using React JS || Scontinent Technologies.**

React is a java script library developed by Facebook that allows developers to create reusable UI components, manage application state efficiently and update the user interface seamlessly with its virtual DOM.

TECHNICAL SKILLS || PERSONAL SKILLS

- Java	- Communication and time management.
- Python	- Team work and Leadership.
- DBMS	- Demonstration skills.
- Full Stack Development	

ACHIVEMENTS || EXTRA CURRICULUM

- Completed Basic HTML course in COURSERA (2025)
- Internship Certifications in Deep Learning and Web Development (2024)
- Participated as Volunteer in Blood Donation Camp (2024)
- Certification in Python from CDAC (2024)

LANGUAGES   HOBBIES

- Kannada	- Singing
- English	- Painting
